

# BRUNOX® Turbo-Spray™

Multi-function-spray  
with Turboline

➔ The only Multi-function-spray  
**WITH TURBOLINE!**

Check these features:

- ✘ Excellent protection against corrosion. Very high lubrication effect.
- ✘ Perfect penetration ability.
- ✘ Environmentally friendly, we use only 3% propellant (CO<sub>2</sub>) ! One spray contains 97% active substance.
- ✘ Flash point of 78 °C = higher security!
- ✘ BRUNOX® Turbo-Spray® contains no silicone, teflon or graphite and therefore does not resinify.
- ✘ The product behaves neutral against varnish, rubber, plastic, leather, wood ect..
- ✘ Has a pleasant smell.

# BRUNOX® Turbo-Spray™

Application for:

- maintenance
- production
- cleaning
- storage
- repair works
- transportation

## LUBRICANT

BRUNOX® Turbo-Spray® is a long-term lubricant because of a mixture of hydrocarbons with the Additive Turboline.

## CREEP OIL

BRUNOX® Turbo-Spray® has an excellent penetration. Because of the capillary effect it penetrates into finest hair-chaps and spaces and for example loosens tightened screws in a very short time.

## ANTI-CORROSION PROTECTION

BRUNOX® Turbo-Spray® guarantees for complete anti-corrosion protection as well as for conservation of hollow spaces. The responsible hydrocarbon-mix guarantees not only a connected protection film, but also the necessary layer-thickness.

## CLEANING AGENT

BRUNOX® Turbo-Spray® loosens mineral dirt and dissolves organic dirt, so that nearly all kinds of stains can be removed easily.

## CONTACT-SPRAY

BRUNOX® Turbo-Spray® has a very low surface-strain and a corresponding liability to metals, so that it disperses water immediately. This property is particularly useful for electrical contacts, where short circuits can be removed or prevented.

Available in the following packages:

Aerosol cans: 100ml, 300ml, 400ml  
Bulk: 5 l, 20 l, 200 l

Physical properties:

Film thickness: 1-2my  
Expected coverage: 100 – 120 m<sup>2</sup>/l  
Flash point: 78 °C  
Freezing Point: below -50 °C

Heat resistance: up to 160 °C short time, up to 125 °C permanent

It is the only liquid tool with  
Turboline for industry, home and hobby
